

# Touch&Switch

Simply switch your Nimbra services

The Touch&Switch Nimbra activation system offers a simple and intuitive way to connect ports and switch Nimbra services using a touch screen or PC application.

Touch&Switch allows you to switch your Nimbra services in real time with a highly intuitive user interface. Whether you need a simple possibility to connect your signals and devices or you want a quick overview of what the current connections are right now; Touch&Switch is the right solution.

You can install Touch&Switch on a PC or notebook with touch screen or regular display; you can select your signals and connect them in your preferred way. Touch&Switch always gives you real-time information on your signals and a bandwidth overview.

Connect ports and switch devices with the Touch&Switch application.

## KEY FEATURES

- Point-to-point and point-to-multipoint connections
- Supports SD/HD/3G-SDI, J2K, MPEG, ETH, ASI, AES
- Bandwidth configuration for ASI, J2K, MPEG and ETS as well as mode selection for SDI and AES
- Easy navigation within large deployments using location tabs
- Multi-level error indication
- Flexible configuration of access permissions per port for multiple user set-ups

- 1+1 Connection protection with automatic source-route selection
- Support for manual source-routing
- Locking of connections
- Slave-Port configuration (e.g. Audio-COM)
- Real-time push updates
- SNMP-control over IP
- Software solution for Windows platforms, easy to install and configure

# TECHNICAL SPECIFICATIONS

## Supported Nimbra products:

Nimbra 600 series  
Nimbra 300 series  
Nimbra VA 220

Architecture: Single or redundant instance

## Supported Access:

8 x Video Access  
Ethernet Access  
AES/EBU Access  
MPEG4 Access  
JPEG2000 Video Access

## Ordering Information:

TP-TS0101	Touch&Switch starter package incl 1 instance and 16 serviceports
TP-TS0011	Touch&Switch extra instance
TP-TS0012	Touch&Switch extra instance for redundancy
TP-TS0022	Touch&Switch extra port for redundancy
TP-TS0023	Touch&Switch per port 17- 29 ports
TP-TS0024	Touch&Switch per port 30-49 ports
TP-TS0025	Touch&Switch per port 50-99 ports
TP-TS0026	Touch&Switch per port 100-199 ports
TP-TS0027	Touch&Switch per port 200-349 ports
TP-TS0028	Touch&Switch per port over 350 ports
TP-TS0050	Touch&Switch maintenance fee

## Standards compliance:

SNMP v2c/v3

## Touch & Switch application:

Operating System: Windows XP, 7, 8, Server 2008

Hardware: 32/64bit, 2GB RAM, 1GHz CPU
