Proposal for resolution regarding guidelines for remuneration and other terms of employment for the group management (item 14)

The Board of Directors proposes that the annual general meeting resolves to approve the Board of Directors' proposal regarding guidelines for remuneration and other terms of employment for senior executives as set forth below.

Guidelines for group management's terms and remuneration and general remuneration principles

These guidelines include the CEO and members of the group management. Remuneration under employments subject to other rules than Swedish may be duly adjusted to comply with mandatory rules or established local practice, taking into account, to the extent possible, the overall purpose of these guidelines. The guidelines are applicable to remuneration agreed, and amendments to remuneration already agreed, after adoption of the guidelines by the annual general meeting 2020. These guidelines do not apply to any remuneration decided or approved by the general meeting.

The guidelines' promotion of the company's business strategy, long-term interests and sustainability

Net Insight develops and sells hardware and software products for the global media industry. Net Insight's solutions are used by customers to build secure and reliable media networks.

A prerequisite for the successful implementation of the company's business strategy and safeguarding of its long-term interests, including its sustainability, is that the company is able to recruit and retain qualified personnel. To this end, it is necessary that the company offers competitive remuneration. These guidelines enable the company to offer the group management a competitive total remuneration.

From time to time, the Board of Directors may propose share-based long-term incentive programs, which are then considered by the general meetings separately and are therefore *excluded* from these guidelines. The programs shall have a clear link to the business strategy and thereby to the company's long-term value creation, including its sustainability. The plans are conditional upon the participants' own investments and certain holding periods of several years. For more information on the current program, see case 14 on the following documents on the company's website:

<https://investors.netinsight.net/wp-content/uploads/sites/2/2017/09/Net-Insight-AGM-2018-Kallelse-pressmeddelande.pdf>

Variable cash remuneration covered by these guidelines shall aim at promoting the company's business strategy and long-term interests, including its sustainability.

Types of remuneration, etc.

The remuneration shall be on market terms and may consist of the following components: fixed cash salary, variable cash remuneration, pension benefits and other benefits. Additionally, the general meeting may – irrespective of these guidelines – resolve on, among other things, share-related or share price-related remuneration.

The satisfaction of criteria for awarding variable cash remuneration shall be measured over a period of one or several years. For the CEO, the variable cash remuneration may amount to not more than 100 per cent of the total fixed cash salary under the measurement period. For other executives, the variable cash remuneration may amount to not more than 40 per cent of the total fixed cash salary under the measurement period.

For the CEO, pension benefits, including health insurance (Sw. *sjukförsäkring*), shall be premium defined. Variable cash remuneration shall not qualify for pension benefits. The pension premiums for premium defined pension shall amount to not more than 30 per cent of the fixed annual cash salary.

For other executives, pension benefits, including health insurance, shall be premium defined. The pension premiums for premium defined pension and the definition of pensionable salary follow the company's Pension and Insurance Policy that has been adopted by the board of directors and is dependent on age, fixed cash salary, year of employment and parts of the variable cash remuneration. The pension premiums for premium defined pension may amount to not more than 25 per cent of the fixed annual cash salary and to not more than 30 per cent of the pensionable salary.

Other benefits may include, for example, life insurance, medical insurance (Sw. *sjukvårdsförsäkring*), accident insurance and company cars. Such benefits may amount to not more than 5 per cent of the fixed annual cash salary.

Termination of employment

When termination is made by the executive, the period of notice may not to exceed six months without any right to severance pay. The notice period may not exceed twelve months for the CEO and six months for other executives, if notice of termination of employment is made by the company. Fixed cash salary during the period of notice and severance pay may together not exceed an amount equivalent to 18 months of fixed cash salary.

Additionally, remuneration may be paid for non-compete undertakings. Such remuneration shall compensate for loss of income and shall only be paid in so far as the previously employed executive is not entitled to severance pay. The remuneration shall amount to not more than 60 per cent of the fixed cash salary at the time of termination of employment and be paid during the time the non-compete undertaking applies, however not for more than twelve months following termination of employment.

Criteria for awarding variable cash remuneration, etc.

The variable cash remuneration shall be linked to predetermined and measurable criteria which can be financial or non-financial and consist of individualized, quantitative or qualitative

objectives. The objectives shall be designed so as to contribute to the company's business strategy and long-term interests, including its sustainability, by for example being clearly linked to the business strategy. Senior executives' variable remuneration shall be 70 per cent based on measurable financial goals, such as (but not limited to) a combination of revenue and earnings.

To which extent the criteria for awarding variable cash remuneration has been satisfied shall be evaluated/determined when the measurement period has ended. The remuneration committee is responsible for the evaluation of variable remuneration to the CEO and submit to the board of directors for approval. For variable cash remuneration to other executives, the CEO is responsible for the evaluation and the remuneration committee is responsible for approval. For financial objectives, the evaluation shall be based on the latest financial information made public by the company.

Conditions for variable remuneration shall be designed so that the board of directors has a) the right to limit payment in part or in full if exceptional economic conditions prevail and such a measure is considered reasonable; and b) is entitled to withhold or claim back paid variable remuneration to senior executives if such remuneration subsequently has been founded incorrect, due to improper actions or negligence.

The board of directors has the right to limit or refrain from payment of the senior executives' variable remuneration if the executive has violated or disregarded the company's codes of conduct.

Salary and employment conditions for employees

In the preparation of the board of directors' proposal for these remuneration guidelines, salary and employment conditions for employees of the company have been taken into account by including information on the employees' total income, the components of the remuneration and increase and growth rate over time, in the remuneration committee's and the board of directors' basis of decision when evaluating whether the guidelines and the limitations set out herein are reasonable.

The decision-making process to determine, review and implement the guidelines

The board of directors has established a remuneration committee. The committee's tasks include preparing the board of directors' decision to propose guidelines for executive remuneration. The board of directors shall prepare a proposal for new guidelines at least every fourth year and submit it to the general meeting. The guidelines shall be in force until new guidelines are adopted by the general meeting. The remuneration committee shall also monitor and evaluate programs for variable remuneration for the executive management, the application of the guidelines for executive remuneration as well as the current remuneration structures and compensation levels in the company. The CEO and other members of the group management do not participate in the board of directors' processing of and resolutions regarding remuneration-related matters in so far as they are affected by such matters.

Derogation from the guidelines

The board of directors may temporarily resolve to derogate from the guidelines, in whole or in part, if in a specific case there is special cause for the derogation and a derogation is necessary to

serve the company's long-term interests, including its sustainability, or to ensure the company's financial viability. As set out above, the remuneration committee's tasks include preparing the board of directors' resolutions in remuneration-related matters. This includes any resolutions to derogate from the guidelines.

Description of material changes to the guidelines and how the views of shareholders' have been taken into consideration

These guidelines have been prepared for the annual general meeting 2020 and are essentially based on earlier guidelines for remuneration to members of the group management but extended to comply with new requirements of the Swedish Companies Act. The guidelines are annually reviewed by the remuneration committee that, in case of amendments, submits it to the board of directors and to the general meeting for comments and decisions.

The Board of Directors' proposal for resolution regarding incentive programme 2020 and issue of warrants (item 15)

The Board of Directors proposes that the annual general meeting resolves to implement a new long-term incentive program for employees within the Net Insight group ("LTI 2020") in accordance with items 15 (a) – 15 (c) below. The resolutions under items 15 (a) – 15 (c) below are proposed to be conditional upon each other and are therefore proposed to be passed as one resolution. LTI 2020 is proposed to include not more than 30 employees within the Net Insight group.

Proposal regarding the adoption of LTI 2020 (item 15 (a))

Background and motives

The purpose for the proposal is to enable an increase in retention and motivation among strategic key employees of the group, and to increase the group's ability to attract top talent to strategic positions. The Board of Directors considers that the adoption of the incentive programme as described below connects the shareholders', the group managements' and other key staffs' interests to ensure maximum long-term value creation.

LTI 2020 in short

LTI 2020 comprises two series, Series 1 and Series 2, which both consists of warrants to be transferred to employees with a vesting period of three years after which the holder is entitled to exercise the warrants to subscribe for B shares during a period of three months.

The Board of Directors proposes the meeting to resolves to issue not more than 7,400,000 warrants and the subsequent transfer of not more than 3,700,000 warrants, of which not more than 3,700,000 may be issued in Series 1 and not more than 3,700,000 may be issued in Series 2.

The right to subscribe for warrants of Series 1 and Series 2 only accrues to the wholly-owned subsidiary Net Insight Consulting AB, which shall transfer the options of both Series 1 and Series 2 to employees of the group. Each warrant entitles the holder to subscribe for one B share. The warrants shall be issued free of charge to Net Insight Consulting AB.

Below is a description of the terms and conditions for each of the option series.

Series 1

The company is proposed to transfer not more than 3,700,000 warrants in Series 1 at a price corresponding to the market value of the warrant (i.e. the warrant premium). Warrants of Series 1 may be transferred to employees not employed within the company's U.S. or UK operations. Warrants of Series 1 may be transferred to participants, current or new employees, at one or several occasions from and including 8 June 2020 until and including 19 June 2020.

Each warrant of Series 1 shall, during a period from 19 June 2023 until 19 September 2023, entitle the holder to subscribe for one new B share in Net Insight at an exercise price corresponding to 120 per cent of the volume-weighted average price of the company's B share as quoted on Nasdaq Stockholm during the period 25 May 2020 – 5 June 2020.

Series 2

The company is proposed to transfer not more than 3,700,000 warrants in Series 2 at a price corresponding to the market value of the warrant (i.e. the warrant premium). Warrants of Series 2 may be transferred to employees not employed within the company's U.S. or UK operations. Warrants of Series 2 may be transferred to participants, current or new employees, at one or several occasions from and including 19 November 2020 until and including 2 December 2020.

Each warrant of Series 2 shall, during a period from 2 December 2023 until 2 March 2024, entitle the holder to subscribe for one new B share in Net Insight at an exercise price corresponding to 120 per cent of the volume-weighted average price of the company's B share as quoted on Nasdaq Stockholm during the period 5 November 2020 – 18 November 2020.

Transfer of warrants in accordance with the above may only be made to the extent that the total number of warrants of Series 1 and Series 2 in total does not exceed 3,700,000 warrants.

Subscription etc.

The issued warrants of Series 1 and Series 2 shall, with deviation from the shareholders' pre-emption rights, only be subscribed for by Net Insight Consulting AB – a wholly owned subsidiary to Net Insight - whereupon this company shall offer warrants of Series 1 and Series 2 to the participants in each program. The transfer of warrants of Series 1 and Series 2 shall be made at a price corresponding to the warrants' market value at the time for transfer (the warrant premium), calculated according to the Black & Scholes formula. The valuation of the warrants shall be made by an independent appraiser or auditor firm. The company shall, in connection with the transfer of warrants of Series 1 and Series 2 to the participants, reserve a pre-emption right regarding the warrants if the participant's employment or assignment within the group is terminated or if the participant wishes to transfer the warrants.

Recalculation due to split, consolidation, new share issue, etc.

The exercise price for Series 1 and Series 2, determined as set out above, shall be rounded to the nearest SEK 0.10, whereby SEK 0.05 shall be rounded downwards. The exercise price and the number of B shares that each employee stock option entitles to subscription for, shall be recalculated in the event of a split, consolidation, new share issue etc. in accordance with market terms. Upon full exercise of the warrants in Series 1, the share capital will increase by SEK 148,000 and upon full exercise of the warrants in Series 2, the share capital will increase by SEK 148,000. However, the share capital may in total not increase with more than SEK 148,000 as a result of the

exercise of warrants in LTI 2020 since an issue of warrants in one of series reduces the number of warrants in the other series, correspondingly.

Allocation of warrants

The right to acquire warrants of Series 1 and Series 2 shall accrue to employees not employed by the company's U.S. or UK operations, which have entered into a pre-emption agreement with Net Insight AB. The maximum allocation within the framework of LTI 2020 amounts to 3,700,000 warrants.

Regardless of which Series, warrants shall be offered in accordance with the following: (i) the CEO shall receive not more than 600,000 warrants; (ii) other members of the group management (approximately eight individuals) shall receive not more than 300,000 warrants per person; and (iii) other key employees (approximately 20 individuals) shall receive not more than 150,000 warrants per person. In case of over-subscription, the number of warrants shall be reduced pro rata, i.e. with the same percentage share for all participants.

In connection with the grant of warrants, the Board of Directors shall have the right to resolve on adjustments in order to fulfil organisational changes, specific rules or market conditions abroad.

Board members shall not be eligible to participate in LTI 2020.

Costs

The transfer of warrants in Series 1 and Series 2 shall be made at a price corresponding to the market value of the warrants and therefore no social security contributions are to be paid by the group in relation to the issue and transfer of the warrants. The market value of the warrants is, in accordance with a preliminary valuation made based on a market value on the underlying B share corresponding to SEK 1.80, SEK 0.35 per warrant, assuming an exercise price (rounded off) of SEK 2.20 per B share. The Black & Scholes valuation model has been used for valuing the warrants, assuming a risk-free interest of -0.35 per cent and a volatility of 38 per cent.

To encourage participation in the LTI 2020, the intention is that employees who choose to participate in the program will receive a premium subsidy in the form of extra salary of an amount after tax, calculated by applying a tax rate of 50 percent, equivalent to 50 percent of the option premium paid. The premium subsidy is paid through two identical payments after the second and the third year under the duration of LTI 2020, provided that the participant is employed within the Net Insight Group at the time of payment. Net Insight's costs, including social security costs, of above extra salary payments amount to approximately SEK 1.9 million.

The total costs, excluding other expenses for LTI 2020 related to fees to external advisors and costs for administration of the programme, are estimated to amount to approximately SEK 1.9 million during the term of the programme, under the assumption of a share price of SEK 1.80 at implementation of the programme.

Implementation

The Board of Directors is entitled to resolve on the detailed conditions for the implementation of LTI 2020. The Board of Directors shall thereby be entitled to make minor adjustments in the annual general meeting's resolution if the board considers there are special reasons thereto.

Effect on important key ratios

The costs for LTI 2020 amount to approximately 0.4 per cent of Net Insight's revenues for the financial year 2019 and approximately 1.5 per cent of Net Insight's planned salary costs for the financial year 2020.

Dilution of existing shares and votes

Based on the number of outstanding shares and votes in the company, LTI 2020 implies, upon exercise of all 3,700,000 warrants in LTI 2020, a full dilution corresponding to approximately 0.94 per cent of the total number of shares and 0.92 per cent of the votes in the company. There are no outstanding incentive programmes that can lead to dilution of the number of shares or votes.

Information about Net Insight's current incentive programmes is available in the annual report for the financial year 2019, and on the company's website, www.netinsight.net.

Preparation of the proposal

The proposal has been prepared in consultation with external advisors and has been reviewed by the remuneration committee and the Board of Directors during February and March 2020.

Each warrant entitles the holder to subscribe for one B share. The warrants shall be issued free of charge to Net Insight Consulting AB. There can be no over-allotment.

Proposal for resolution regarding authorization for the Board of Directors to resolve to repurchase and transfer of own shares (item 16)

The Board of Directors proposes that the annual general meeting authorizes the Board of Directors to resolve to repurchase, on one or several occasions until the next annual general

meeting, as many own shares as may be purchased without the company's holding at any time exceeding two per cent of the total number of shares in the company. The shares shall be purchased on Nasdaq Stockholm and only at a price per share within the price range applicable, i.e. the range between the highest purchase price and the lowest selling price.

The Board of Directors also proposes that the annual general meeting authorises the Board of Directors to resolve, on one or several occasions until the next annual general meeting, to transfer (sell) own shares. Transfers may be carried out on Nasdaq Stockholm at a price within the price range applicable, i.e. the range between the highest purchase price and the lowest selling price. Upon such transfers, the price shall be established so that it is not below market terms. However, a discount to the stock market price may apply, in line with market practice. Transfers of own shares may be made of up to such number of shares as is held by the Company at the time of the Board of Director's resolution regarding the transfer.

The purpose of the authorisation to repurchase own shares is to promote efficient capital usage in the company, to provide flexibility as regards the company's possibilities to distribute capital to its shareholders and to provide hedging for the company's option programme. The purpose of the authorization to transfer own shares is to enable the Board of Directors to make corporate acquisitions, product acquisitions or enter into collaboration agreements, or to raise working capital or broaden the shareholder base or for use in the context of the company's incentive plans or to provide hedging for the company's option programme.

The annual general meeting's resolution according to the above shall be made taking into account the majority rules stipulated in Chapter 19, Sections 18 and 33 of the Swedish Companies Act, which means that the resolution must be supported by shareholders representing at least two-thirds of both the votes cast and the shares represented at the meeting.
